

Battery Shipments Authorized for International Ocean Transport to/from US

Packing Instruction P903

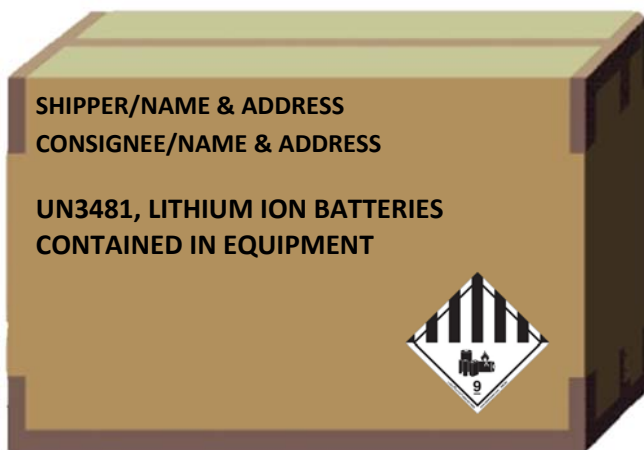

Customer Defined Shipment Specifications

- Watt-hour rating is > 20 Wh/cell or > 100 Wh/battery

Packaging Requirements

- Cells and batteries protected to prevent short circuits, movement, and accidental activation
- The strong outer packaging must be constructed of a suitable material of adequate strength and design in relation to the capacity of the packaging and its intended use unless the battery is afforded equivalent protection by the equipment in which it is contained
- Equipment with cells or batteries packed in strong outer packaging that protects equipment from moving and/or accidental activation

Marking and Labeling Requirements

UN3481, LITHIUM ION BATTERIES CONTAINED IN EQUIPMENT	UNID, Proper Shipping Name
	Class 9 Lithium Battery label

Lithium Ion**Fully Regulated****UN348I****Contained In**

Battery Shipments Authorized for International Ocean Transport to/from US

Packing Instruction P903

Documentation Requirements

1. Include document (any form) with the following information:
 - Contains all of the information required by the IMDG code
 - Emergency response information required as per 49 CFR, Subpart G of Part 172
2. Additional emergency response information or documentation may be required as per carrier(s)

10 Vessel/Flight & Date	11 Port/Place Handling	9 Additional Handling Information		
12 Port/Place of Discharge	13 Destination	24 Hour Emergency Contact Name: XXXXX 24 Hour Emergency Contact Number: xxx-xxx-xxxx		
14 Shipping Marks	*Number & Kind of Packages, Description of Goods	NW	GW (kg)	CUBE (m³)
1 box	UN3481, Lithium Ion Batteries Contained in Equipment, 9, F-A, S-I	12 kg
