

**Lithium Metal****Fully Regulated****UN3090****Standalone**

**Battery Shipments Authorized for **Air Transport** (US and Int'l)  
on Cargo Aircraft Only (CAO)  
Packing Instruction 968, Section IB\***

**Customer Defined Shipment Specifications**

- Lithium content is  $\leq 1$  g/cell or  $\leq 2$  g/battery
- Maximum net quantity per package is  $\leq 2.5$  kg

**Packaging Requirements**

- Cells and batteries protected to prevent short circuits
- Inner packagings that completely enclose the cell or battery and provide protection from damage or compression
- Strong rigid outer packaging
- Each package must be capable of withstanding:
  - a 1.2 meter drop test in any orientation without damage to the cells or batteries contained in the package, without shifting of the contents that would allow short circuiting, and without release of the package contents; and,
  - A force applied to the top surface equivalent to the total weight of identical packages stacked to a height of 3 m (including the test sample) for a duration of 24 hours, without damage to the cells or batteries contained therein and without any reduction of effectiveness
- Transport aboard PAX is not authorized

**Marking and Labeling Requirements**

The Lithium Battery mark containing "UN3090" and a phone number may continue to be used until 31 December 2026

UN3090, LITHIUM METAL BATTERIES	UNID, Proper Shipping Name
	Class 9 Lithium Battery label
	Cargo Aircraft Only handling label*
	Lithium Battery mark containing "UN3090"  PHMSA has published a Notice of Enforcement that allows the new Lithium Battery mark to be used for air shipments prepared under the international air regulations
