

Lithium Ion**Excepted****UN3481****Contained In**

Battery Shipments Authorized for **US Ground Transport** Packaging Authorization §173.185(c)(1)(i) and (iii)

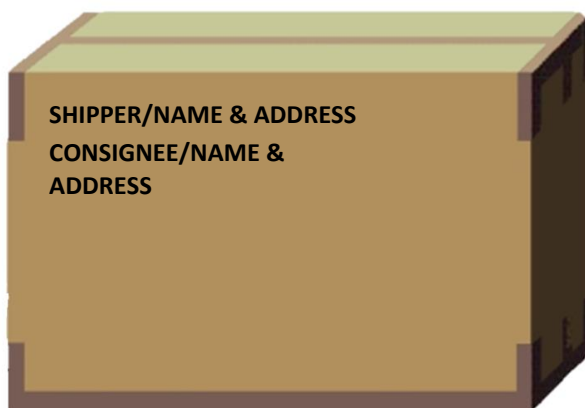

Customer Defined Shipment Specifications

- Watt-hour rating is ≤ 20 Wh/cell or ≤ 100 Wh/battery
- The net weight of lithium cells or batteries per package is > 5 kg
- Equipment contains ≤ 4 cells or ≤ 2 batteries
- Consignment contains no more than two such packages

Packaging Requirements

- The strong rigid outer packaging must be constructed of a suitable material of adequate strength and design in relation to the capacity of the packaging and its intended use unless the battery is afforded equivalent protection by the equipment in which it is contained
- Equipment with cells or batteries packed in strong rigid outer packaging that protects equipment from moving and/or accidental activation

Marking and Labeling Requirements

	Lithium Ion Batteries – Forbidden for Transport Aboard Passenger Aircraft
	OR Lithium Batteries – Forbidden for Transport Aboard Passenger Aircraft
	OR Cargo Aircraft Only label
